Change the Default Text on your Computer.
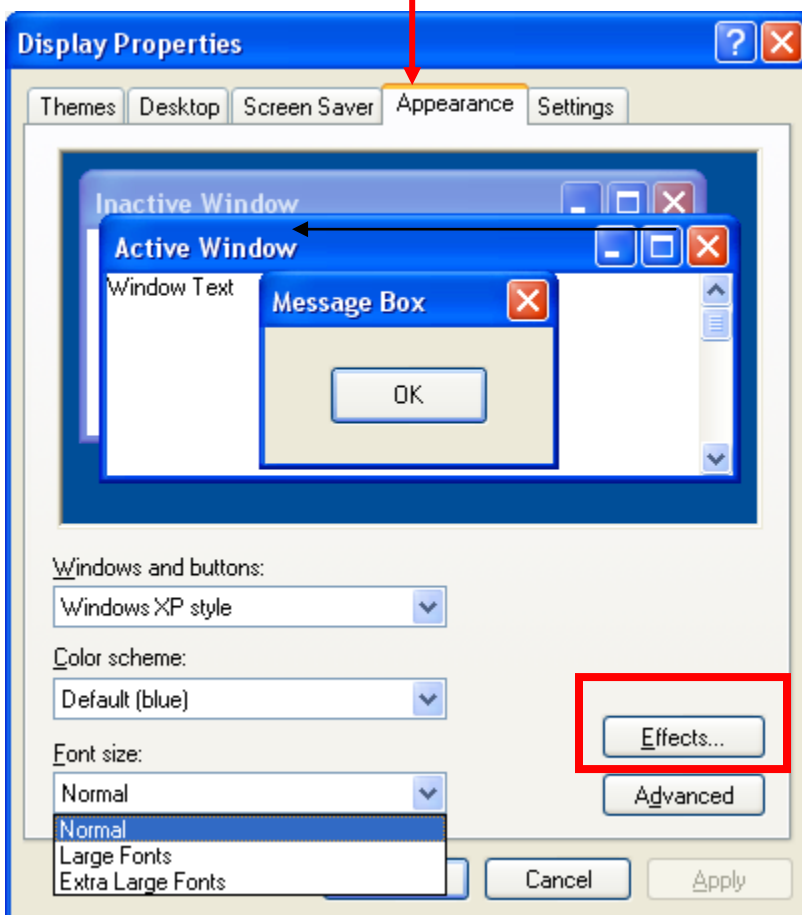

Click on **Start**
Scroll up to **Settings** and choose **Control Panel**.

Click on Display

Note: You also do a right click right on the desktop and scroll down to properties. It will take you to this same window.
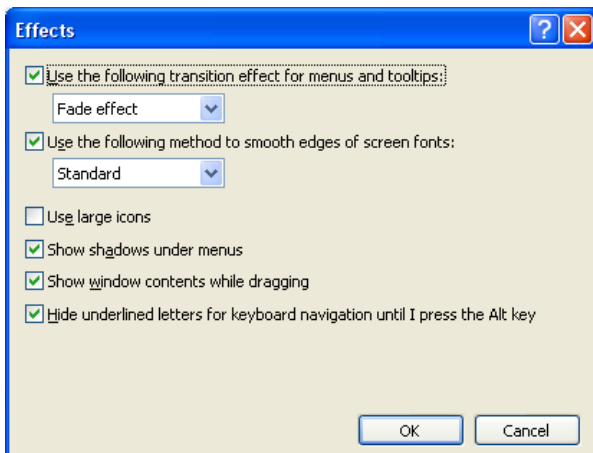

Click on the **Appearance** tab

You can also select another size.
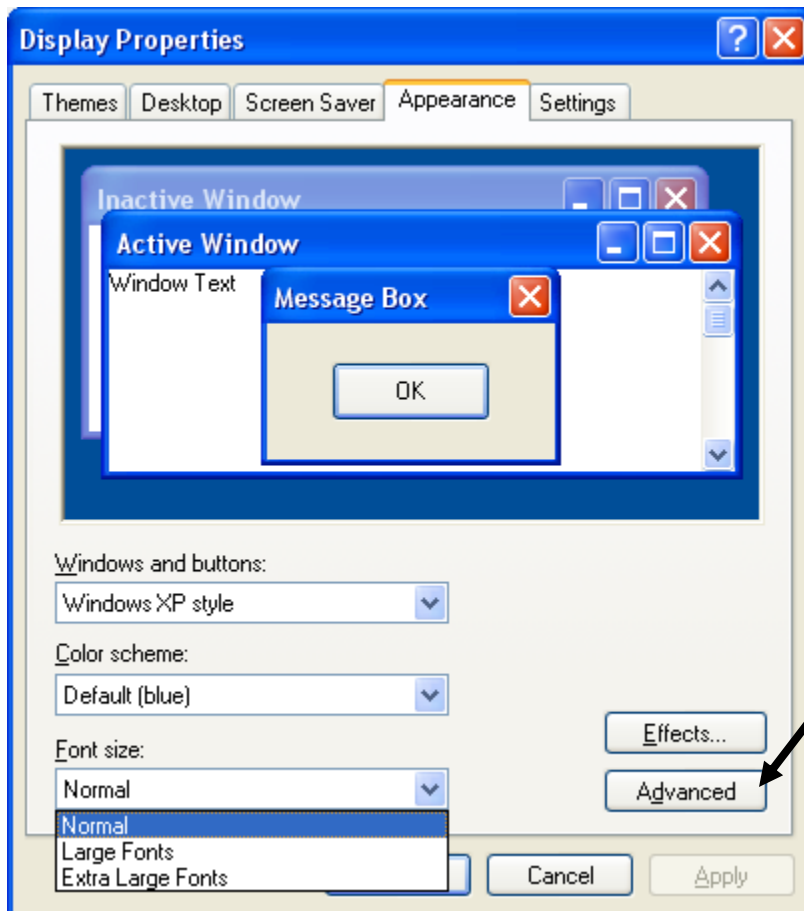

Change default color scheme

Under font size:
Use the drop down arrow to make default font large or extra large.
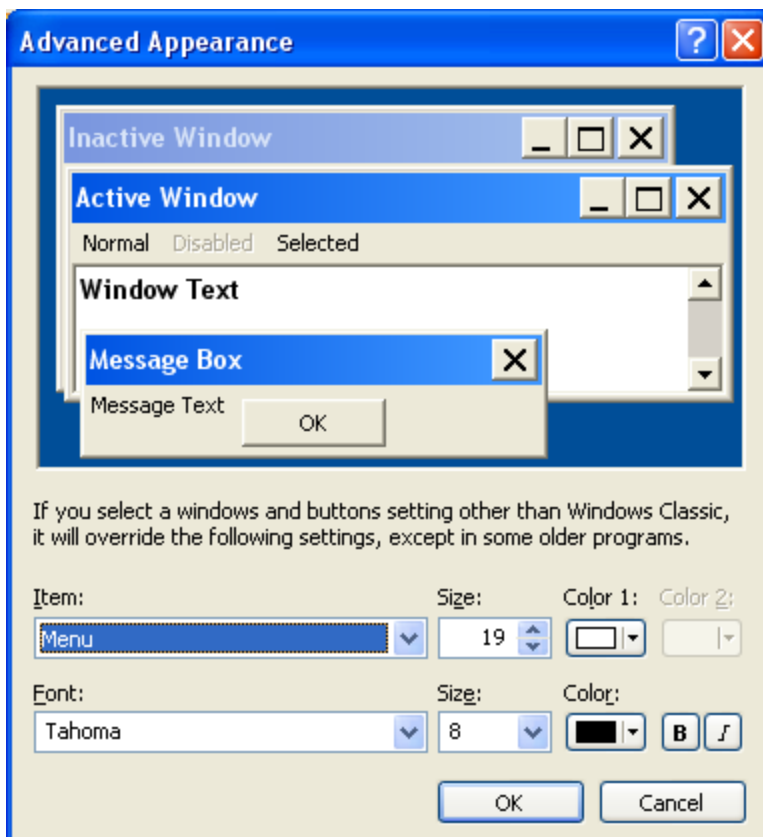

Change Effects:

Click on **Effects link** (*shown above*)

Here you can choose large icons if you have trouble seeing them on your screen.
